SLA-SRNL-00052	<p>1. DWPF and Saltstone SRNL Support - Research & development work required for facility operation/support, sludge batch and saltstone processing efforts and process enhancements. Majority of work scope is controlled by TTRs/TARs and is tracked in the DWPF/Saltstone POW. This item number also supports staff augmentation from SRNL, as needed. The fiscal year dollar amount is an estimate based on FY2014 funding. The fiscal year estimate is likely to change based on authorized budget. Work Scope includes, but is not limited to:□</p> <ul style="list-style-type: none"> - Environmental sampling□ - Equipment calibration support □ - Non Destructive Examination (NDE) □ - Consulting Services (flow sheet, analytical support, equipment, etc.)□ - Facility receipt and inspection for antifoam and frit □ - Statistical support □ - Failure analysis, testing, and welding support □ - Remote equipment support (lab, camera design, testing and fabrication, radar probe, GC Support, etc.)□ - Modeling□ - PIN Acceptance Testing □ - Radionuclide characterization, analyses and flowsheet testing (WAPS, glass sample analysis, washing and CPC qualification flow sheet testing, salt batch issues related to Saltstone/DWPF operation, physical property measurements, testing to support any processing issues, Analytical Method testing, REDOX, Tank 50 sample, NRC required samples, physical property measurements, testing to support any Saltstone processing issues, and etc.) □ -Melter Off Gas Flammability calculations□ -Nonradioactive Flow Sheet and Glass Work (Variability study support, Frit Development, Glass Paper Studies, Glass Fabrication and PCCS Model Checks, CPC flowsheet work, Simulant preparation and development, Redox model evaluations, etc.□ - Salt Batch Formulations□ -TCLP Analysis of Saltstone samples□ - Foreign Material exclusion, etc.□ -0.1 and 0.5 Micron Cross-flow Testing for 512-S□ -MST Fine Removal□ -PRFT Sample analyses□ -DWPF processability studies□ -EES support for DWPF Analytical Laboratory (equipment modifications for remote operation) 		E1.C1.D.W1OPA2SLA	\$5,900,000.00
	2. Saltstone SRNL Support - No funding for this line item. Funding has been combined with Line Item #1 of this SLA.			\$0.00
	3. SRNL Support for Dry Frit- Research & development work required for development of requirements for de-dusting and/or acidifying the frit. Includes demonstrations performed at the vendor. Work scope is controlled by TTRs/TARs and is tracked in the DWPF POW. - Currently not funded		E1.C1.D.W1SDFSRNL	\$0.00
